

Study buddy for ESHRE Nurse & Midwife certification: The link between the curriculum, the reading list, and introductory online talks			
Curriculum		Reading list	Introductory online talks
A. Physiology of spontaneous conception	A.1. In vivo sperm and egg transport	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none">Chapter 7: Sperm and Egg transport, Fertilization, and implantation (<i>Only the following sections: ‘Sperm transport’, ‘Egg transport’; p243-252 and the summaries on p253, p258-259, p268</i>)Chapter 6: Regulation of the Menstrual Cycle (<i>Complete chapter</i>) In-Vitro Fertilization <ul style="list-style-type: none">Chapter 6: Implantation and early stages of fetal development (<i>Complete chapter</i>)	Talk of ESHRE Florence course 2018 by Dr. Inge Custers: https://ecampus.eshre.eu/course/view.php?id=5099
	A.2. In vivo oocyte maturation		
	A.3. In vivo fertilization		
	A.4. In vivo implantation		
B. Epidemiology of infertility	B.1. Causes	Boivin et al., 2007 Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none">Chapter 27: Female Infertility (<i>The following section can be skipped: ‘Epidemiology of infertility in the US’; p1138-1139</i>)Chapter 30: Male Infertility (<i>Complete chapter</i>)	Part I of talk of ESHRE Florence course 2018 by Ms. Sara Somers: https://ecampus.eshre.eu/course/view.php?id=5356 (Please note that the reference in the presentation to ‘Calhaz-Jorge et al, 2016’ has to be updated to ‘De Geyter et al, 2018’).
	B.2. Prevalence	ESHRE ART fact sheet	
	B.3. Definitions	ICMART glossary (Zegers-Hochschild et al., 2017) Schmidt et al., 2012	
	B.4. Fertility (treatment) prognosis	De Geyter et al., 2018	
C. Female reproduction	C.1. Development of the female reproductive tract	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none">Chapter 3: The Ovary-Embryology and Development (<i>Complete chapter</i>)	Webinar in 2021 – 2022
	C.2. Anatomy of the female reproductive system	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none">Chapter 4: The Uterus (<i>The following sections can be skipped: ‘A Teleological Theory of Endometrial Menstrual Events’; ‘The uterus is an endocrine organ’; ‘Reproductive function of Leiomyomas’; ‘Medical treatment of Leiomyomas’; p135-143 and p150-155</i>)	
	C.3. Physiology of the female reproductive system		
	C.3.1. Endocrinology and the menstrual cycle	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none">Chapter 3: The Ovary-Embryology and Development (<i>Complete chapter</i>)Chapter 4: The Uterus (<i>The following sections can be skipped: ‘A Teleological Theory of Endometrial Menstrual Events’; ‘The uterus is an endocrine organ’; ‘Reproductive function of</i>	

		<i>Leiomyomas</i> ; <i>Medical treatment of Leiomyomas</i> ; p135-143 and p150-155) <ul style="list-style-type: none"> Chapter 6: Regulation of the Menstrual Cycle (<i>Complete chapter</i>) 	
	C.3.2. Function of the organs	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 3: The Ovary-Embryology and Development (<i>Complete chapter</i>) Chapter 4: The Uterus (<i>The following sections can be skipped: 'A Teleological Theory of Endometrial Menstrual Events'; 'The uterus is an endocrine organ'; 'Reproductive function of Leiomyomas'; 'Medical treatment of Leiomyomas'; p135-143 and p150-155)</i>) 	
	C.3.3. Oogenesis C.3.4. The oocyte	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 3: The Ovary-Embryology and Development (<i>Complete chapter</i>) 	
	C.4. Diagnostic evaluation of the female reproductive system C.4.1. Medical history taking C.4.2. Physical and gynecological examination	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 27: Female Infertility (<i>The following section can be skipped: 'Epidemiology of infertility in the US'; p1138-1139)</i>) 	Webinar in 2021 – 2022 Gynecological ultrasound: Talk of ESHRE Florence course 2018 by Ms. Annick Geril: https://ecampus.eshre.eu/course/view.php?id=5093
	C.4.3. Endocrine analysis	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 20: Reproduction and the Thyroid (<i>The following sections can be skipped: 'Functional changes with aging', 'Thyroid function tests', 'Osteoporosis and excessive thyroxine', 'Thyroid nodules', and from 'Thyroid physiology in the fetus and the neonate' until the end of the chapter; p887-889, p895-897, p900-905)</i>) In-Vitro Fertilization <ul style="list-style-type: none"> Chapter 2: Endocrine control of reproduction: Controlled ovarian hyperstimulation for ART (<i>Complete chapter</i>) 	ESHRE POI Guideline: Talk on ESHRE's eCampus by Dr. Femi Janse: https://ecampus.eshre.eu/course/view.php?id=5255
	C.4.4. Gynecological ultrasound C.4.5. Imaging of uterine cavity and tubal patency (i.e. HSG, saline, gel, oil or foam HyCoSy) C.4.6. Hysteroscopy C.4.7. Laparoscopy	Practical Gynecological Ultrasound <ul style="list-style-type: none"> Chapter 2: Practical equipment operation and technique (<i>Complete chapter</i>) Chapter 7 Ultrasounds and fertility (<i>Complete chapter</i>) Clinical Gynecologic Endocrinology and Infertility	

		<ul style="list-style-type: none"> Chapter 27: Female Infertility (<i>The following section can be skipped: 'Epidemiology of infertility in the US'; p1138-1139</i>) 	
	C.5. Diagnosing and treating pathology of the female reproductive system	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 27: Female Infertility (<i>The following section can be skipped: 'Epidemiology of infertility in the US'; p1138-1139</i>) 	
	C.5.1. Polycystic Ovary Syndrome	ESHRE Guideline on PCOS (<i>Summary of recommendations in Human Reproduction only</i>)	
	C.5.2. Endometriosis	ESHRE endometriosis guideline (<i>Only Human Reproduction publication</i>)	
	C.5.3. Premature Ovarian Insufficiency	ESHRE POI guideline (<i>Only summary document</i>)	
	C.5.4. Tubal pathology	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 27: Female Infertility (<i>The following section can be skipped: 'Epidemiology of infertility in the US'; p1138-1139</i>) 	
	C.5.5. Uterine malformations C.5.6. Other	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 4: The Uterus (<i>The following sections can be skipped: 'A Teleological Theory of Endometrial Menstrual Events'; 'The uterus is an endocrine organ'; 'Reproductive function of Leiomyomas'; 'Medical treatment of Leiomyomas'; p135-143 and p150-155</i>) 	
	C.6. General pathology interfering with female fertility	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 4: The Uterus (<i>The following sections can be skipped: 'A Teleological Theory of Endometrial Menstrual Events'; 'The uterus is an endocrine organ'; 'Reproductive function of Leiomyomas'; 'Medical treatment of Leiomyomas'; p135-143 and p150-155</i>) Chapter 27: Female Infertility (<i>The following section can be skipped: 'Epidemiology of infertility in the US'; p1138-1139</i>) 	

D. Male reproduction	D.1. Development of the male reproductive tract D.2. Anatomy of the male reproductive system D.3. Physiology of the male reproductive system D.3.1. Endocrinology D.3.2. Function of the organs D.3.3. Spermatogenesis D.3.4. The spermatozoa	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 3: The Ovary-Embryology and Development (<i>Complete chapter</i>) Chapter 30: Male Infertility (<i>Complete chapter</i>) In-Vitro Fertilization <ul style="list-style-type: none"> Chapter 2: Endocrine control of reproduction: Controlled ovarian hyperstimulation for ART (<i>Complete chapter</i>) Chapter 3: Gametes and gametogenesis (<i>Complete chapter</i>) Chapter 4: Sperm-oocyte interaction (<i>Complete chapter</i>) 	Webinar in 2021 – 2022
	D.4. Diagnostic evaluation of the male reproductive system D.4.1. Medical history taking D.4.2. Physical examination D.4.3. Assessment of the sperm sample based on WHO guidelines D.4.4. Endocrine analysis D.4.5. Ultrasound of the testis and/or prostate D.5. Pathology of the male reproductive system D.5.1. Obstructive azoospermia D.5.2. Non-obstructive azoospermia D.5.3. Varicocele D.5.4. Other D.6. General pathology interfering with male fertility	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 30: Male Infertility (<i>Complete chapter</i>) 	Webinar in 2021 – 2022
E. Clinical fertility treatments	E.1. Surgical treatment	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 27: Female Infertility (<i>The following section can be skipped: 'Epidemiology of infertility in the US'; p1138-1139</i>) ESHRE endometriosis guideline (<i>Only Human Reproduction publication</i>)	

	E.2. Ovulation induction E.3. Intra-Uterine Insemination (IUI) E.3.1. Controlled Ovarian Stimulation E.3.1.1. Types of medication E.3.1.2. Stimulation protocols E.3.2. Insemination	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 27: Female Infertility (<i>The following section can be skipped: 'Epidemiology of infertility in the US'; p1138-1139</i>) Chapter 32: Assisted Reproductive Technologies (<i>Complete chapter</i>) Cohlen et al., 2018	Talk of ESHRE Florence course 2018 by Prof. Dr. Anja Pinborg: https://ecampus.eshre.eu/course/view.php?id=5125
	E.4. In Vitro Fertilisation and Intra-Cytoplasmic Sperm Injection (IVF/ICSI)	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 32: Assisted Reproductive Technologies (<i>Complete chapter</i>) In-Vitro Fertilization <ul style="list-style-type: none"> Chapter 11: Oocyte retrieval and embryo culture (<i>Complete chapter</i>) Chapter 13: Micromanipulation techniques (<i>Only the following sections: 'Introduction'; 'ICSI: genetic implications', 'Surgical sperm retrieval', 'Indications for ICSI'; 'IMSI'; 'Assisted Hatching'; p216-219, p226-228</i>) 	Webinar in 2021 – 2022
	E.4.1. Controlled Ovarian Stimulation E.4.1.1. Types of medication E.4.1.2. Stimulation protocols	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 32: Assisted Reproductive Technologies (<i>Complete chapter</i>) 	
	E.4.2. Oocyte retrieval	ESHRE guideline on Ultrasound: oocyte pick-up (<i>Recommendations in Human Reproduction Open publication only</i>)	
	E.4.2.1. Procedure	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 32: Assisted Reproductive Technologies (<i>Complete chapter</i>) In-Vitro Fertilization <ul style="list-style-type: none"> Chapter 11: Oocyte retrieval and embryo culture (<i>Complete chapter</i>) 	
	E.4.2.2. Pain relief	Kwan et al., 2013 (<i>standard version</i>)	
	E.4.3. Embryo transfer	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 32: Assisted Reproductive Technologies (<i>Complete chapter</i>) 	
	E.5. Frozen Embryo Transfer (FET) cycles	Clinical Gynecologic Endocrinology and Infertility <ul style="list-style-type: none"> Chapter 32: Assisted Reproductive Technologies (<i>Complete chapter</i>) In-Vitro Fertilization	

		<ul style="list-style-type: none"> Chapter 11: Oocyte retrieval and embryo culture (<i>Complete chapter</i>) Chapter 12: Cryopreservation of gametes and embryos (<i>The following section can be skipped: 'Principles of cryobiology'; p191-196</i>) 	
	E.5.1. Monitoring and timing of the FET cycle	In-Vitro Fertilization <ul style="list-style-type: none"> Chapter 12: Cryopreservation of gametes and embryos (<i>The following section can be skipped: 'Principles of cryobiology'; p191-196</i>)
